

Meters UK Ltd – Environmental Policy

Date 09/10/2025

Written By – Becky Mayo – General Manager

Policy Statement

Meters UK Ltd is committed to conducting its business in a manner that protects the environment, prevents pollution, and promotes sustainability. We recognise that our operations, products, and services have an impact on the environment, and we strive to manage these responsibly while continuously improving our environmental performance.

Our Commitments

Compliance and Standards

- We will meet or exceed all applicable environmental legislation, regulations, and other requirements relevant to our operations.
- We will work in alignment with recognised environmental management standards such as **ISO 14001**.

Pollution Prevention and Waste Management

- We aim to reduce waste at source and promote reuse and recycling wherever possible.
- Hazardous substances will be handled, stored, and disposed of safely to prevent pollution.
- We will minimise emissions to air, land, and water from our operations and transport activities.

Resource Efficiency

- We are committed to reducing our consumption of energy, water, and raw materials through efficient practices and continuous improvement.
- Sustainable procurement principles will guide our purchasing decisions, prioritising suppliers who share our environmental values.

Product Responsibility

- We will design, source, and supply metering products that support efficient energy and water management for our customers.
- Our aim is to contribute to sustainable resource use through the development and promotion of accurate, durable, and environmentally responsible products.

Climate Change and Carbon Reduction

- Meters UK Ltd will actively work to measure, monitor, and reduce its carbon footprint.

- We will explore opportunities for renewable energy use and low-emission transport solutions.

Training and Awareness

- We will ensure that all employees are aware of this policy and understand their individual responsibilities for environmental protection.
- Training and engagement will promote an environmental culture throughout the company.

Continuous Improvement

- Environmental objectives and targets will be set, reviewed annually, and integrated into our business planning processes.
- We will monitor performance and strive for continual imp
